

## ■ DESCRIPTION

The TCS2108 series are highly precise, low noise, positive voltage LDO regulators manufactured using CMOS processes. The series achieves high ripple rejection and low dropout and consists of a standard voltage source, an error correction, current limiter and a phase compensation circuit plus a driver transistor. Output voltage is selectable in 100mV increments within a range of 1.5V ~ 5.0V. The series is also compatible with low ESR ceramic capacitors which give added output stability. This stability can be maintained even during load fluctuations due to the excellent transient response of the series.

The current limiter's foldback circuit also operates as a short protect for the output current limiter and the output pin. The CE function enables the output to be turned off, resulting in greatly reduced power consumption.

## ■ FEATURES

- |                          |  |
|--------------------------|--|
| ● Output Voltage Range   | 1.0V to 5.0V (selectable in 100mV steps)         |
| ● Highly Accurate        | ± 2%   |
| ● Dropout Voltage        | 300mV @ 100mA (3.0V type)                        |
| ● High Ripple Rejection  | 70dB (10 kHz)                                    |
| ● Low Power Consumption  | 70 µA (TYP.)                                     |
| ● Maximum Output Current | 300mA  |
| ● Standby Current        | less than 2µA                                    |
| ● Internal protector     | current limiter and short protector              |
| ● Small packages         | SOT-25, USP-6B,SOT-353/SC70-5 and other required |

## ■ APPLICATIONS

- Mobile phones
- Cordless phones
- Cameras, Video cameras
- Portable games
- Portable AV equipment
- Reference voltage
- Battery powered equipment

## ■ PACKAGE

- SOT-25
- USP-6B
- SOT-353/SC70-5
- Other required

## ORDERING INFORMATION

| PACKAGE | TEMPERATURE RANGE | ORDERING PART NUMBER | TRANSPORT MEDIA             | MARKING |
|---------|-------------------|----------------------|-----------------------------|---------|
| SOT23-5 | -40°C to 85 °C    | TCS2108_EXX          | Tape and Reel<br>3000 units |         |

## ■ TEST CIRCUITS

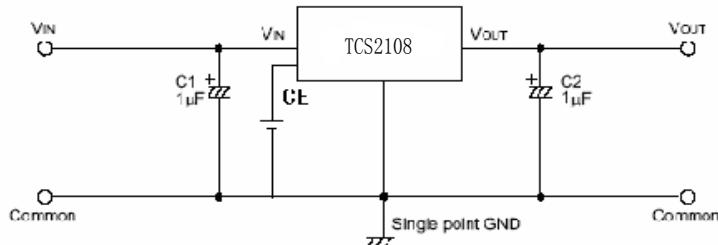

1.

2.

## ■ TYPICAL APPLICATION CIRCUIT

**Caution** The above connection diagram and constant will not guarantee successful operation. Perform thorough evaluation using the actual application to set the constant.

## ■ Application Conditions

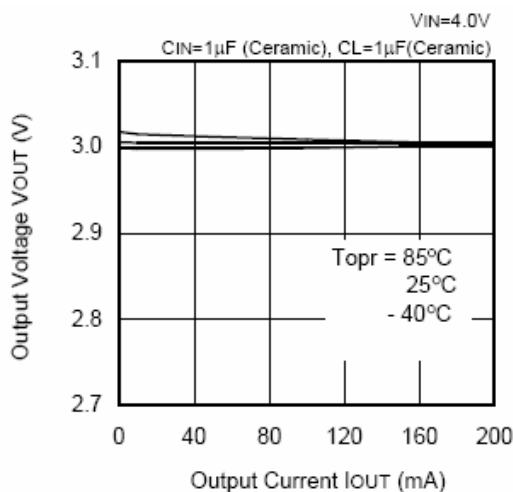

Input capacitor (CIN):  $1.0\mu\text{F}$  or more

Output capacitor (CL):  $1.0\mu\text{F}$  or more (tantalum capacitor)

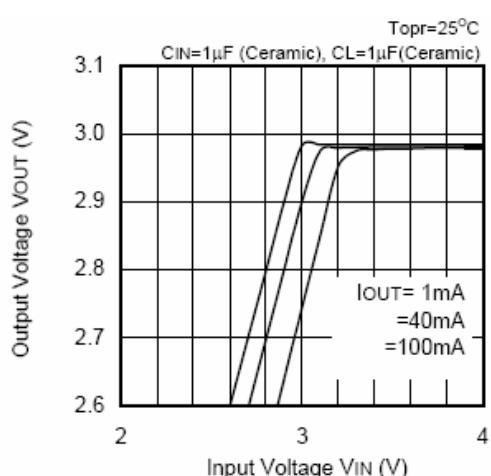

**Caution** A general series regulator may oscillate, depending on the external components selected. Check that no oscillation occurs with the application using the above capacitor.

## ■ TYPICAL PERFORMANCE CHARACTERISTICS (3.0V output)

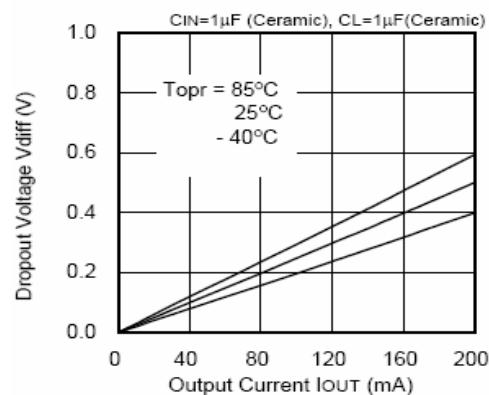

1、Output Voltage vs. Output Current

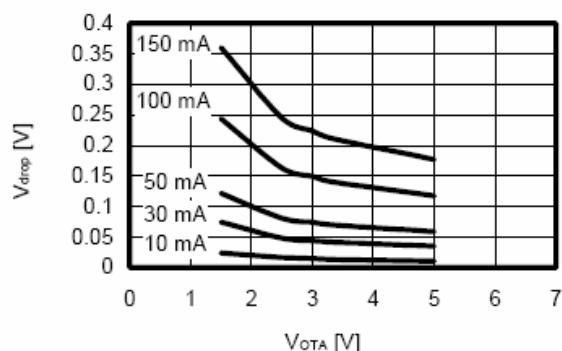

2、Output Voltage vs. Input Voltage (Contd.)

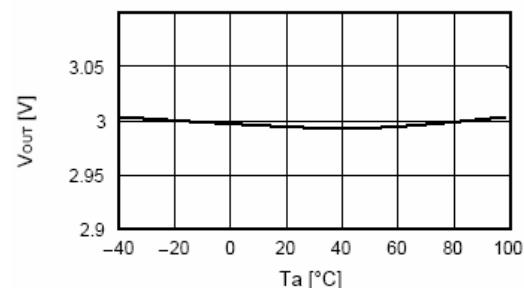

3、Dropout Voltage vs. Output Current

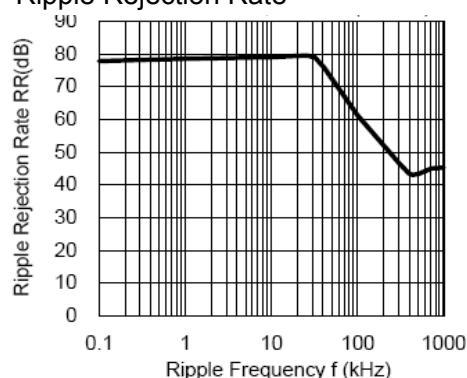

4、Dropout Voltage vs. Output Voltage

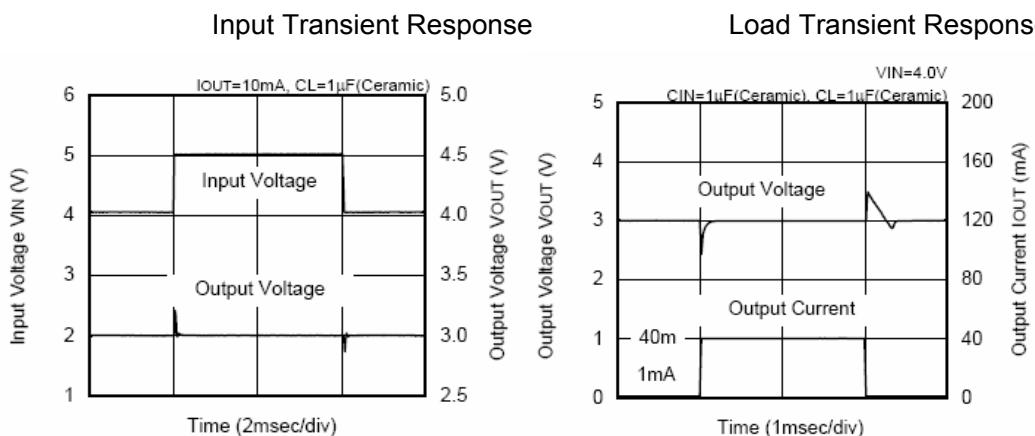

5、Output Voltage vs. Ambient Temperature
